

Why are you at this course?

A Requirement

B Self-interest

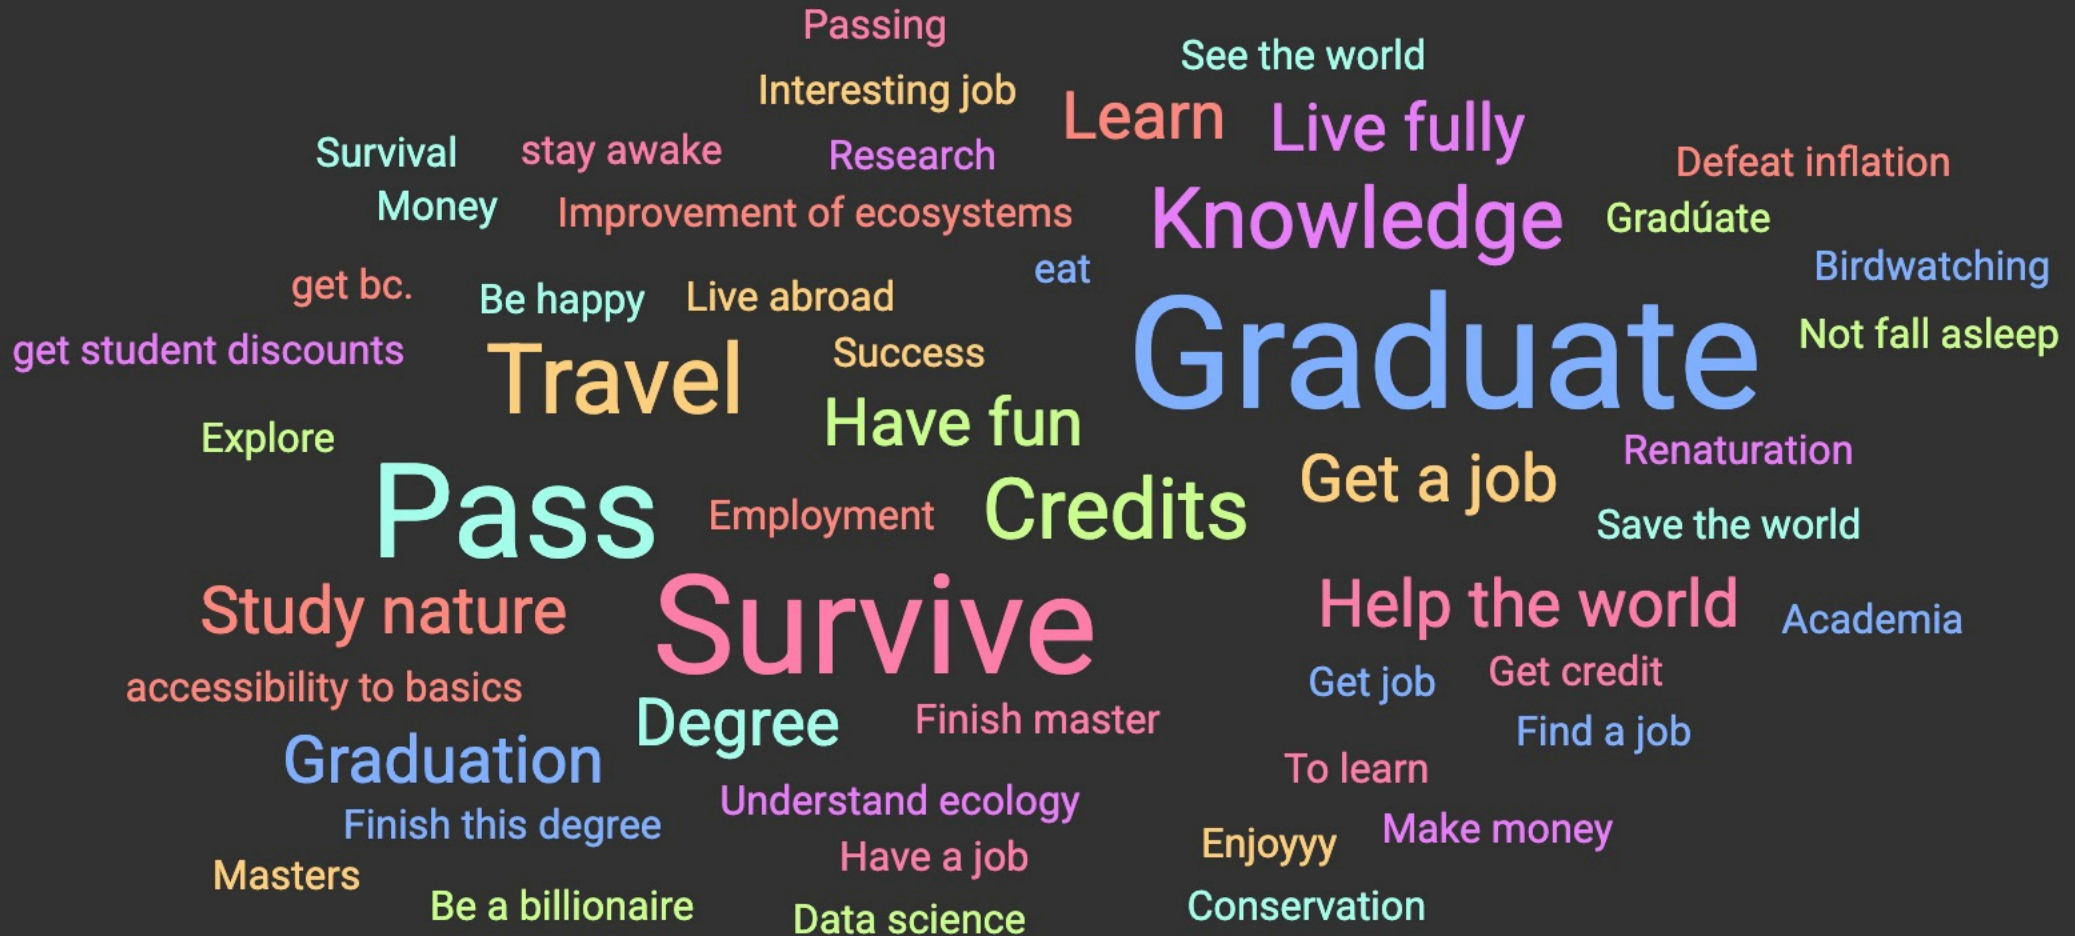

C Easy credits

D Other

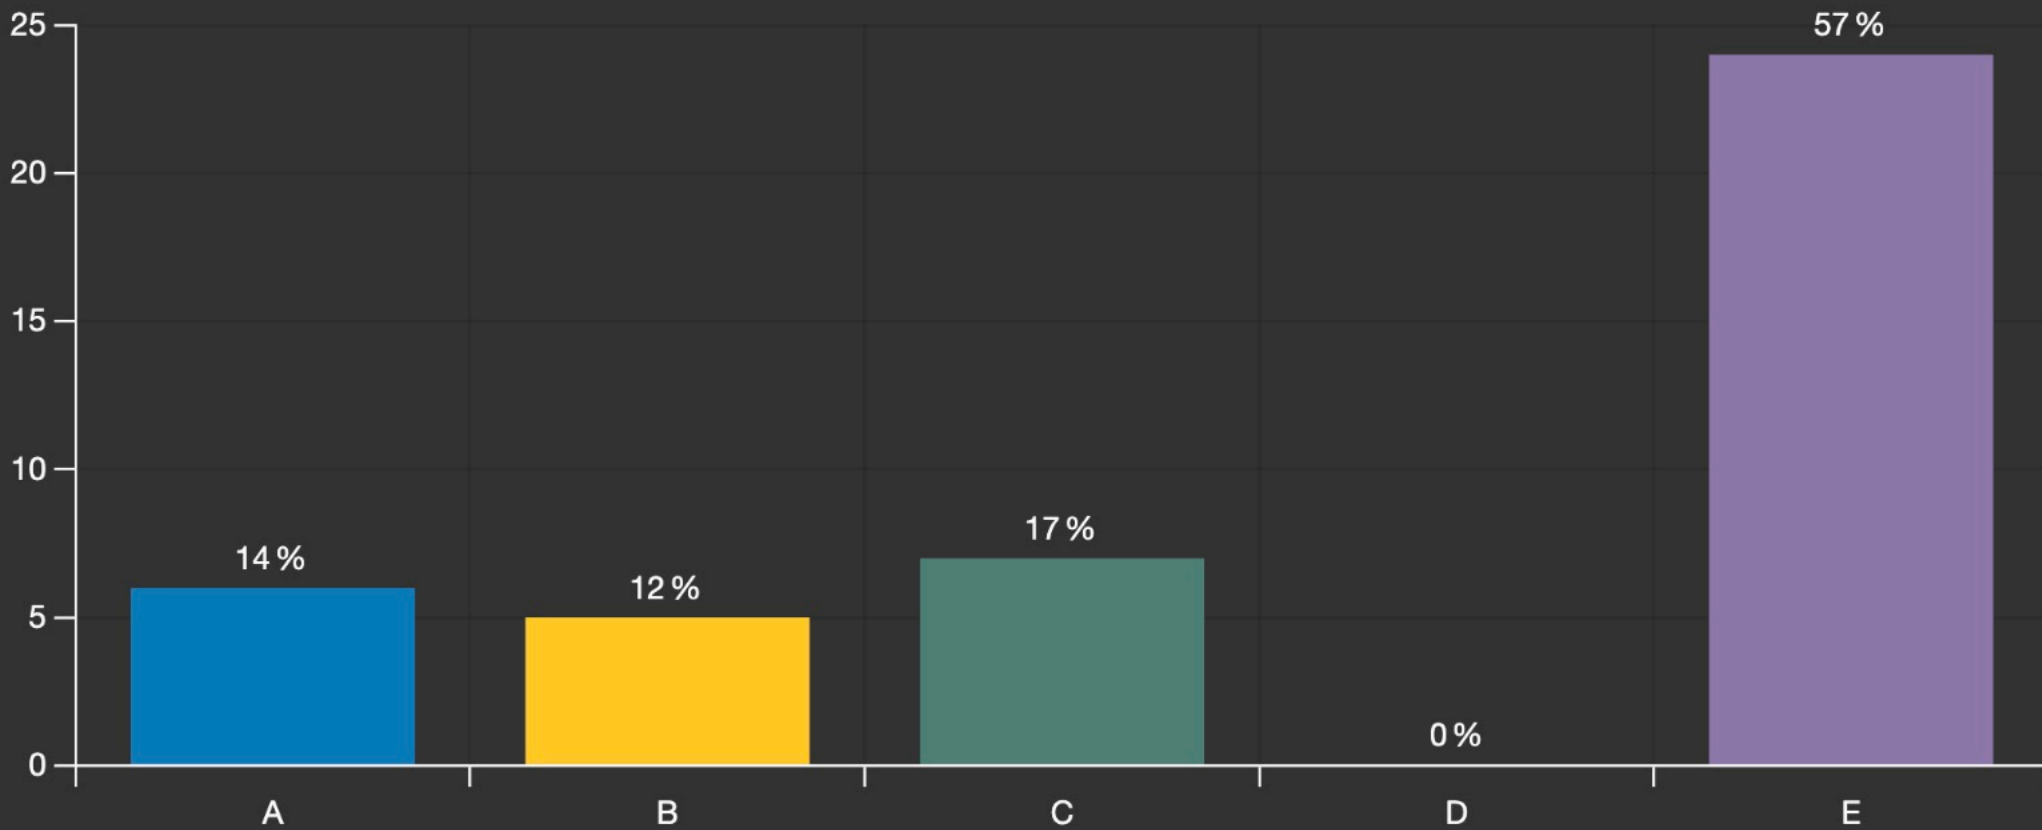

What country are you coming from?

What are your long-term aims?

In which field would you like to continue in the future?

A Business

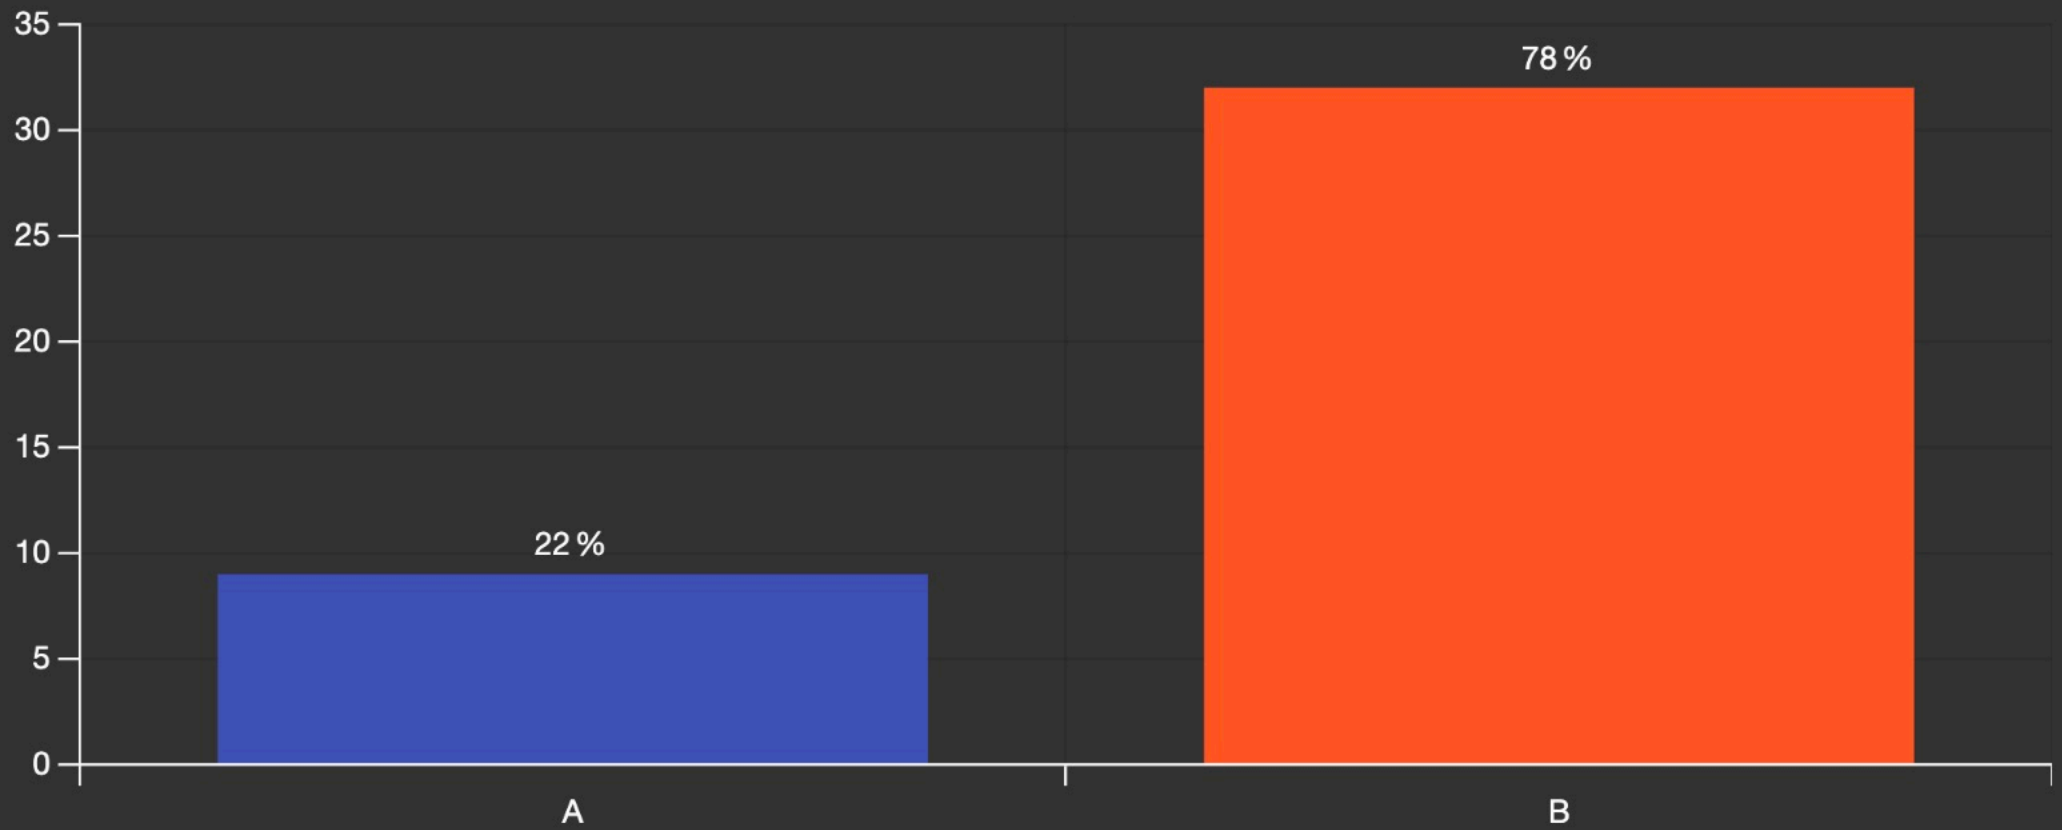

B Non-profit organizations

C Government

D Education

E Science

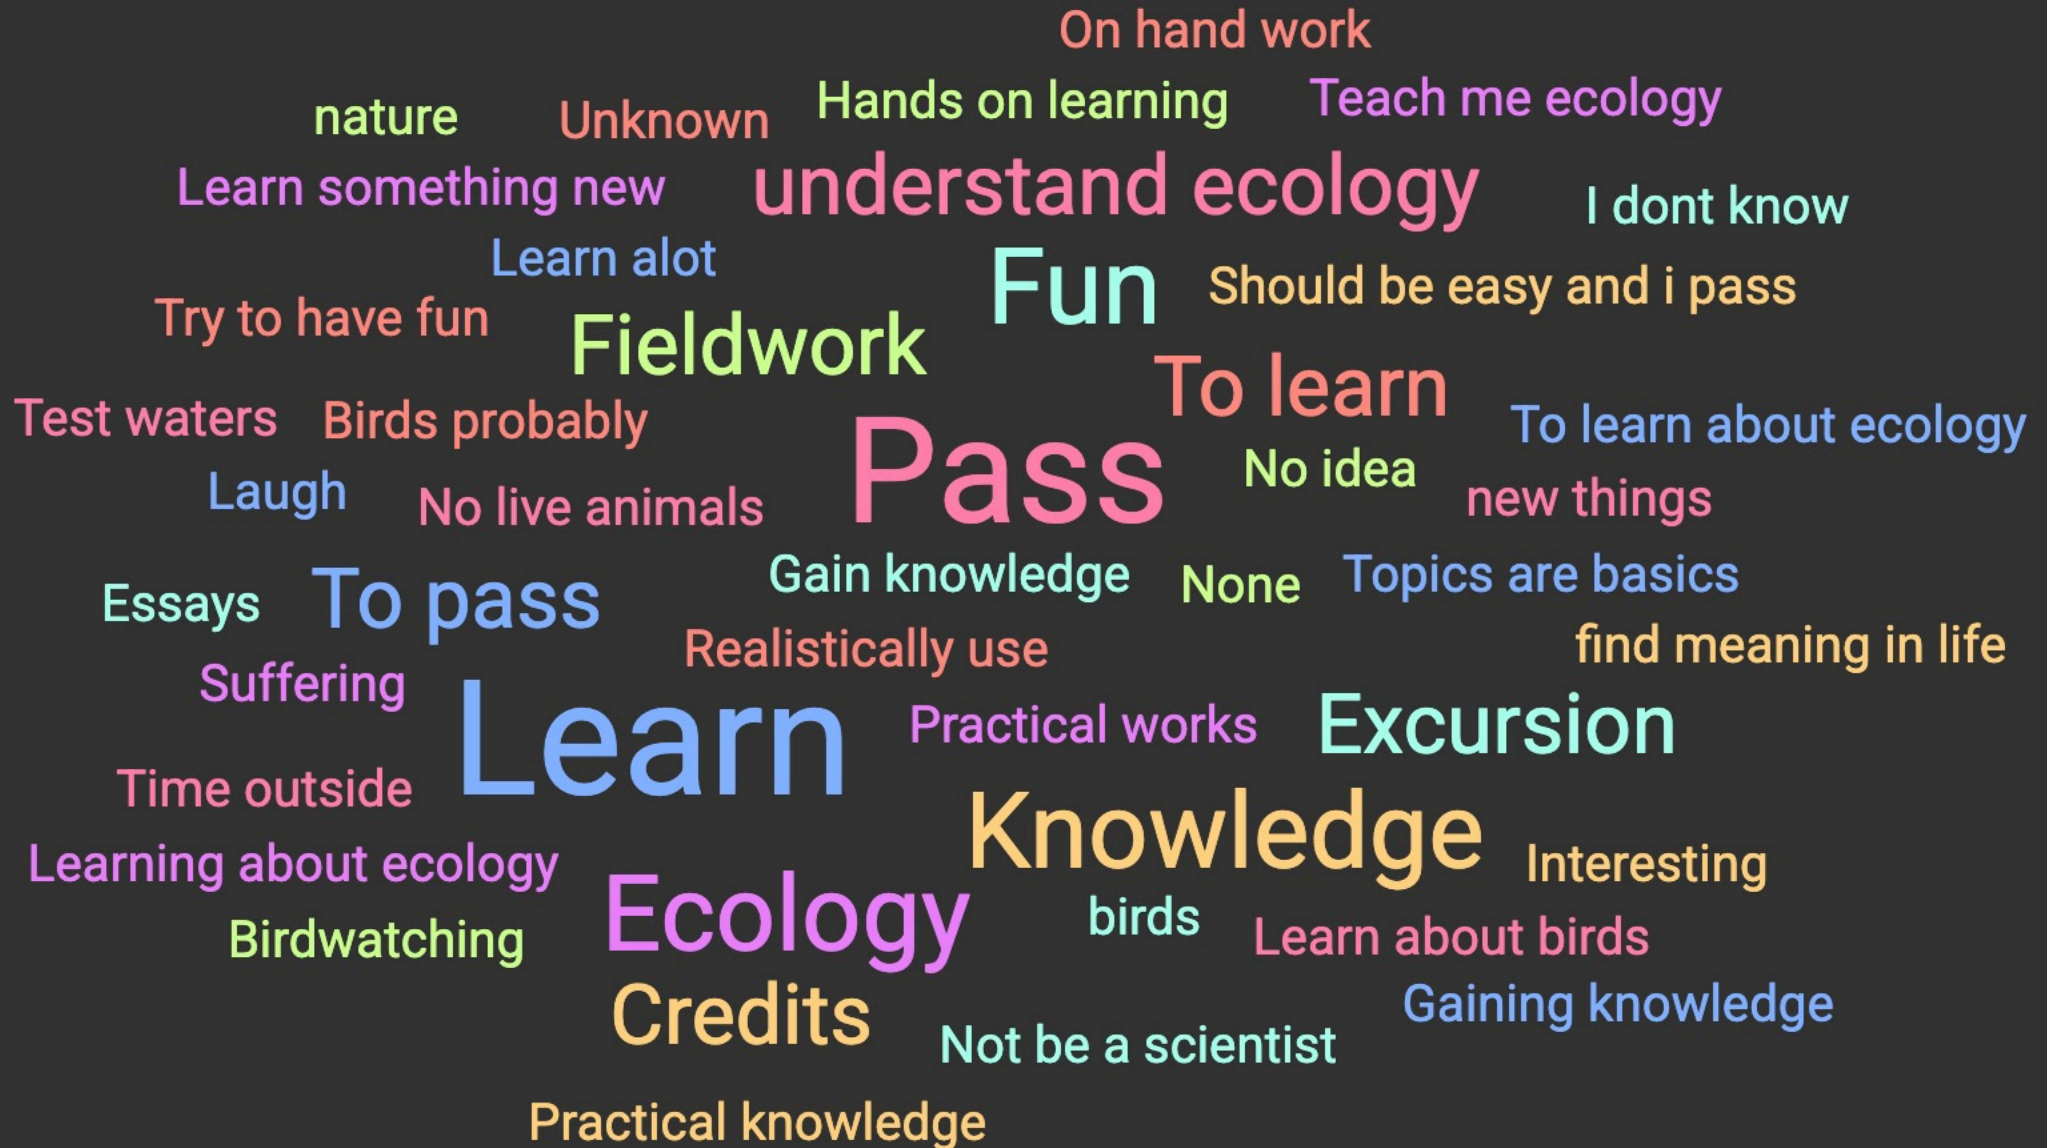

Have you read the course syllabus?

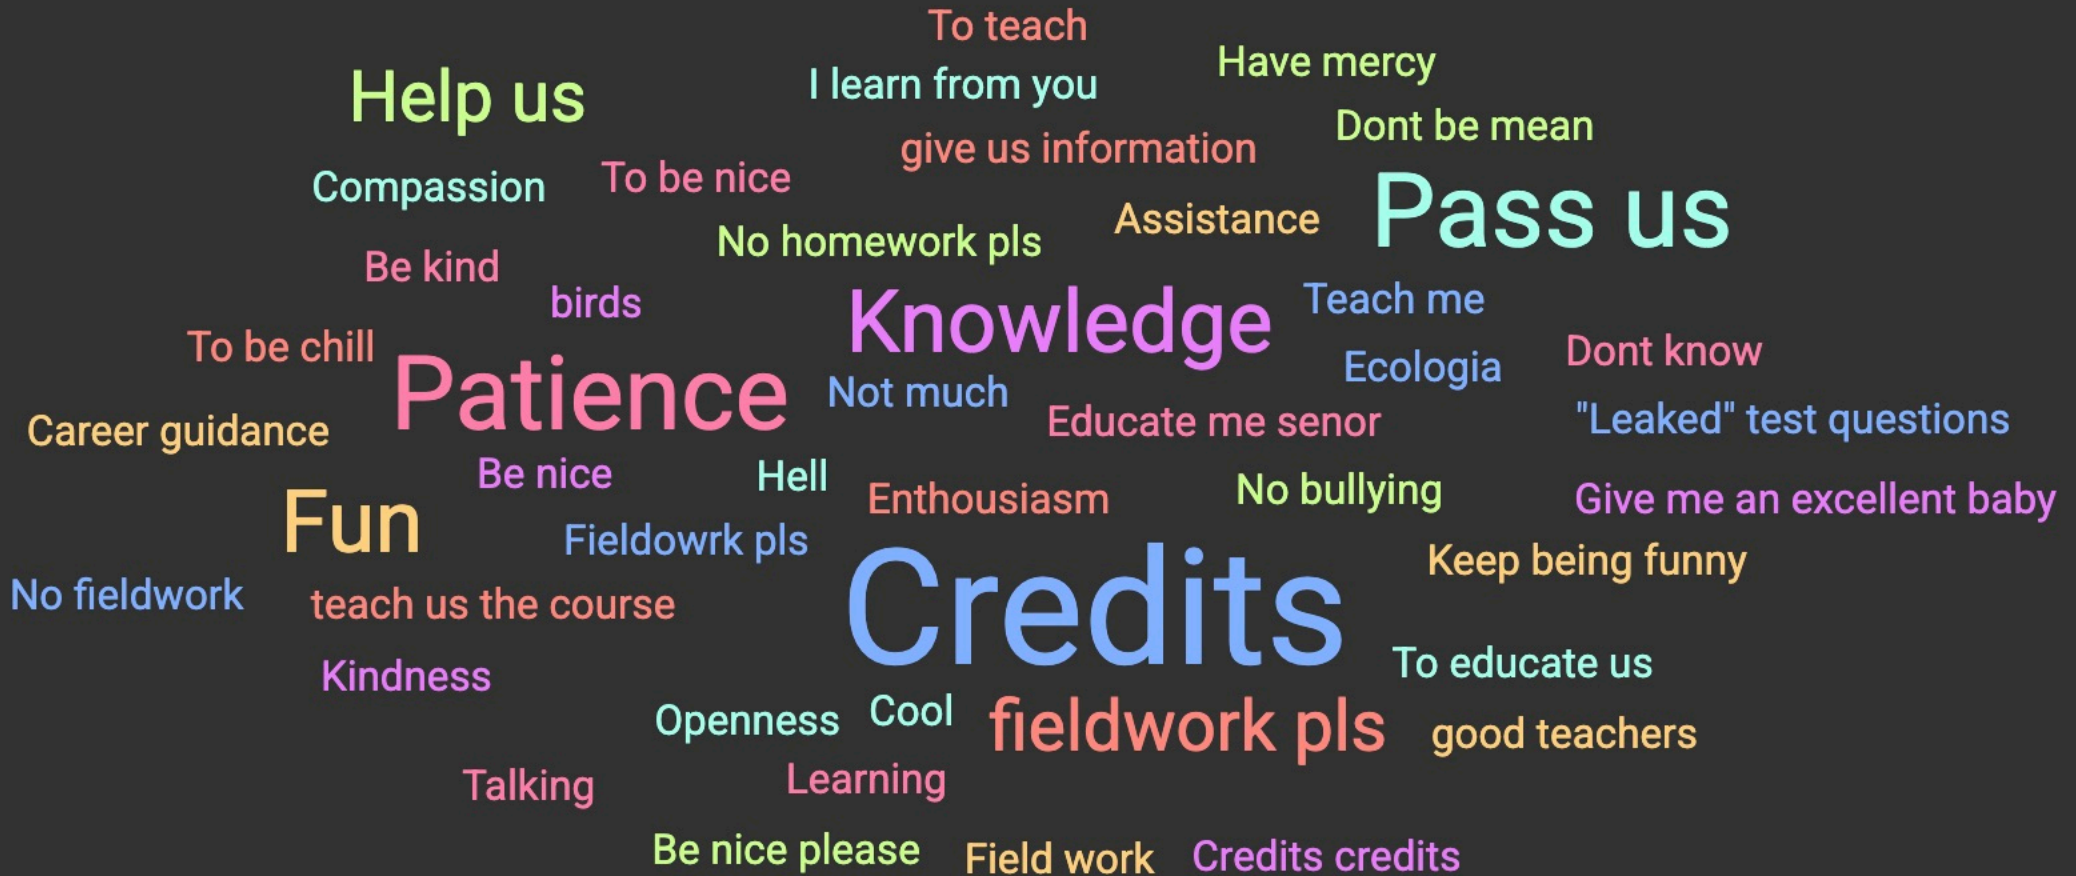

A Yes

B No

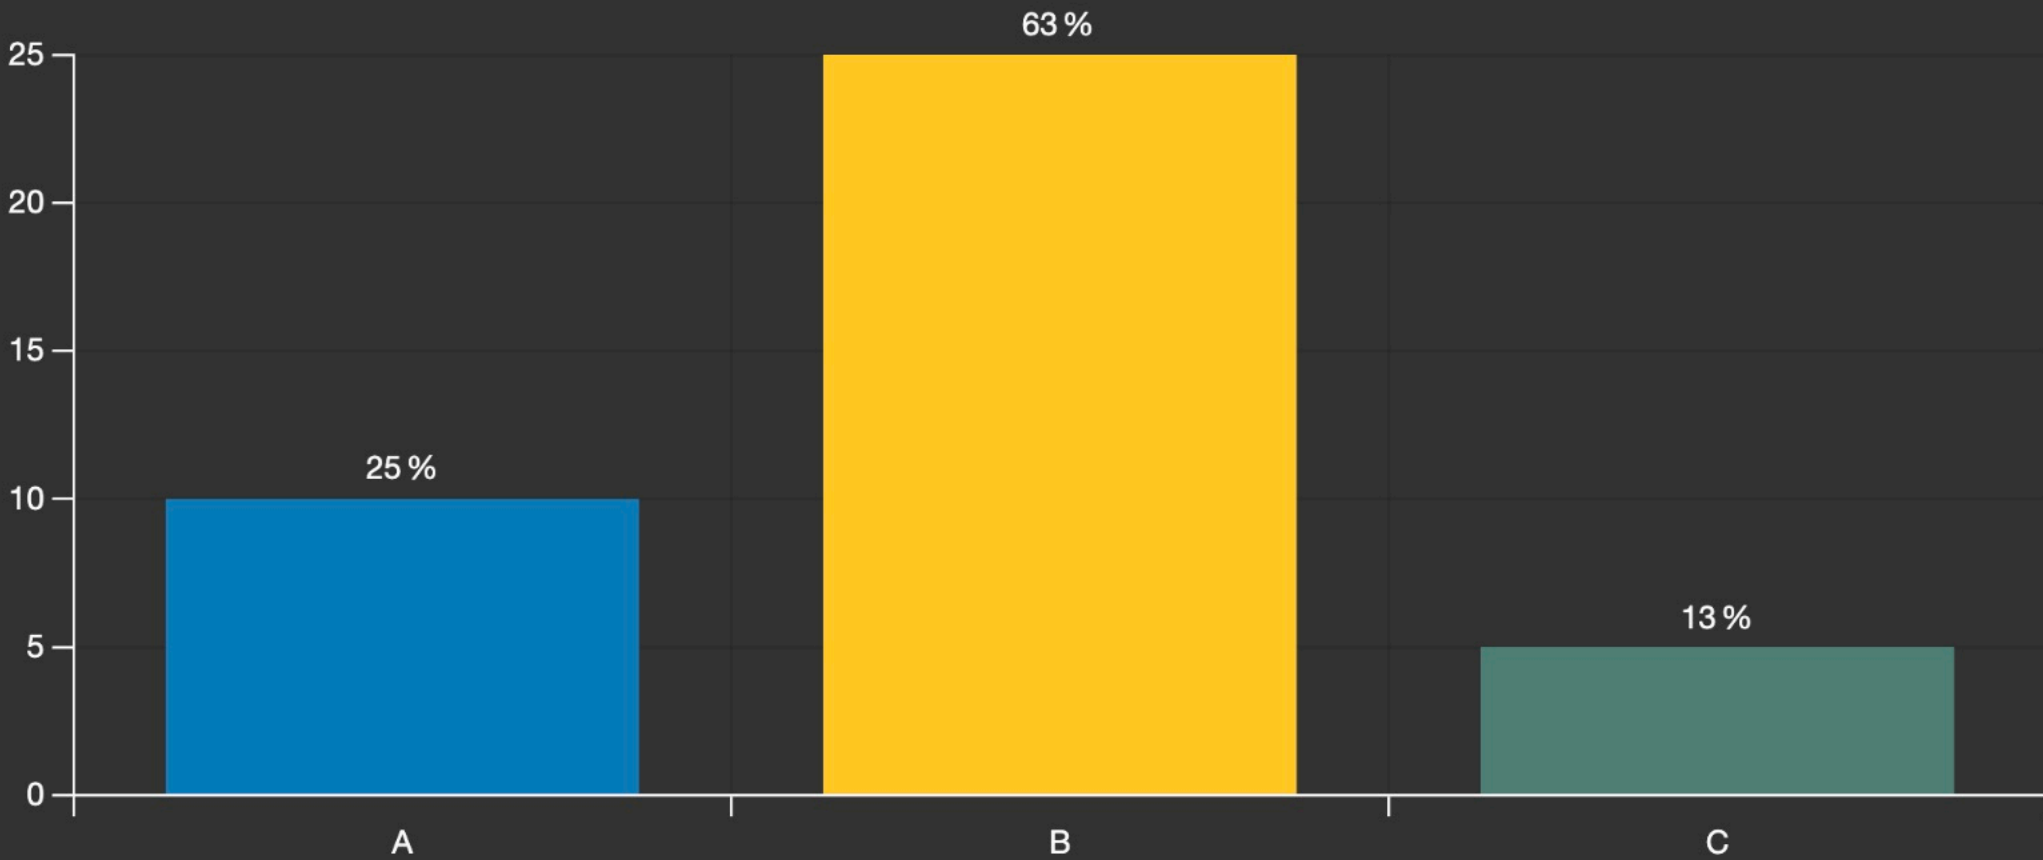

What are your expectations from the course?

-
-
-

How confident are you in your understanding of evolution?

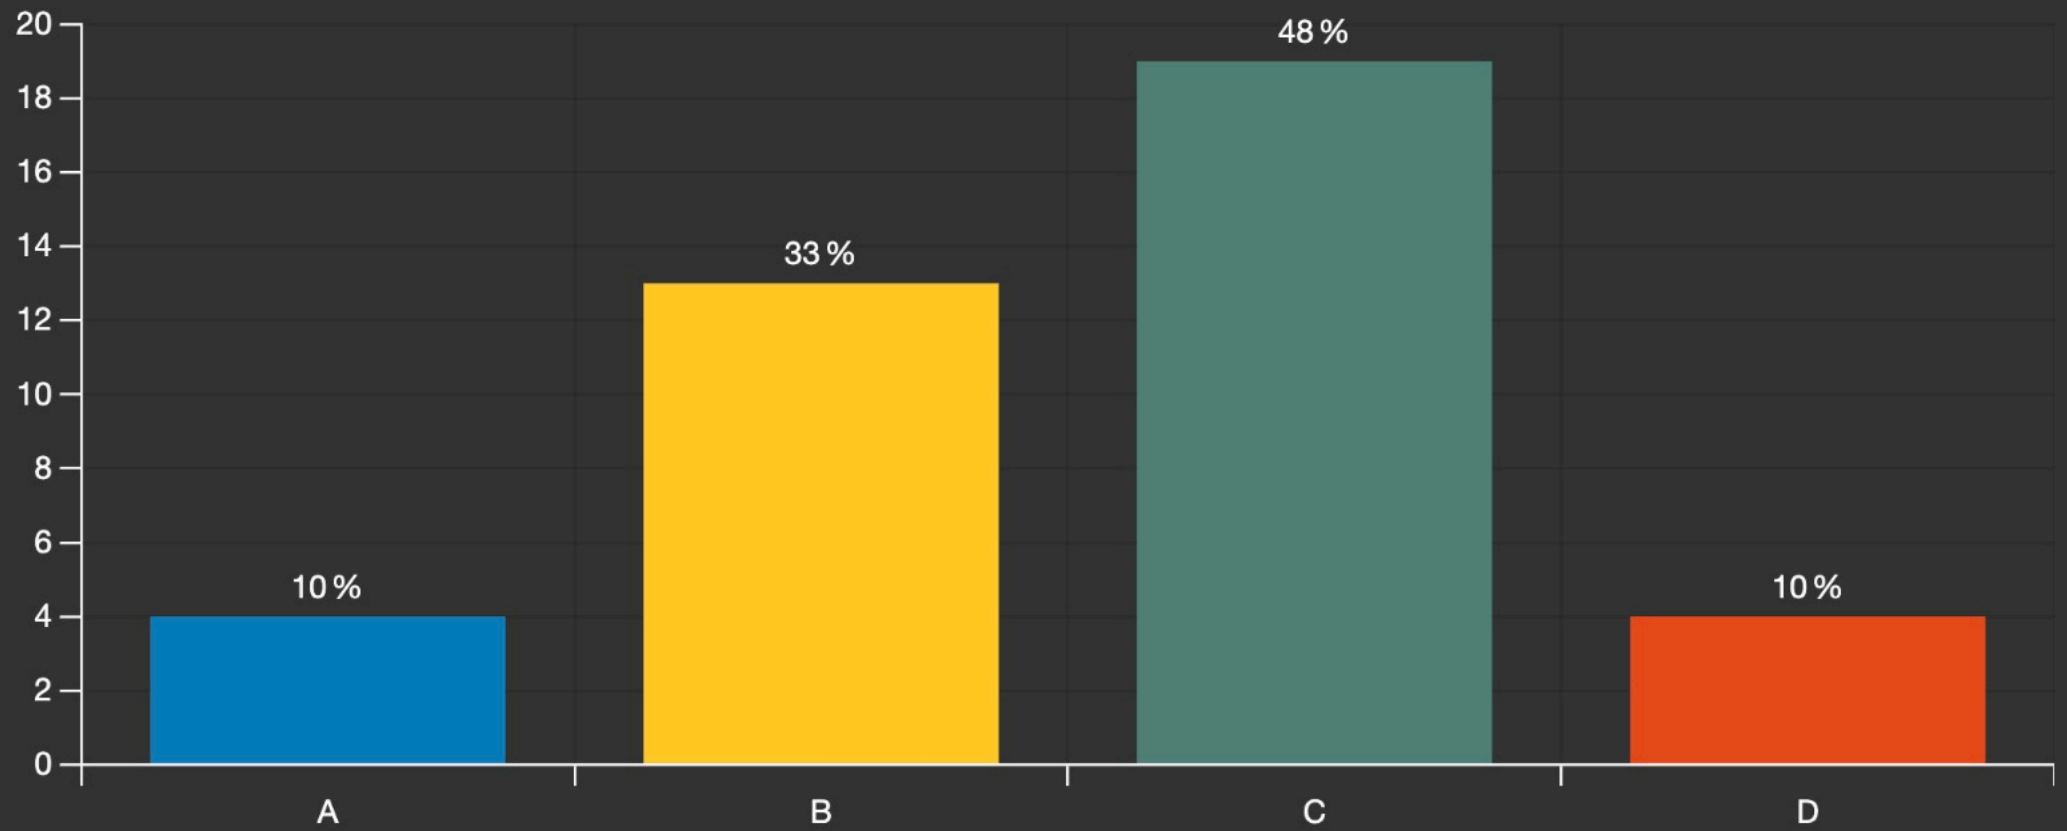

A Very

B Somewhat

C Not at all

What's your background in ecology?

A Never heard about it.

B Have a vague understanding.

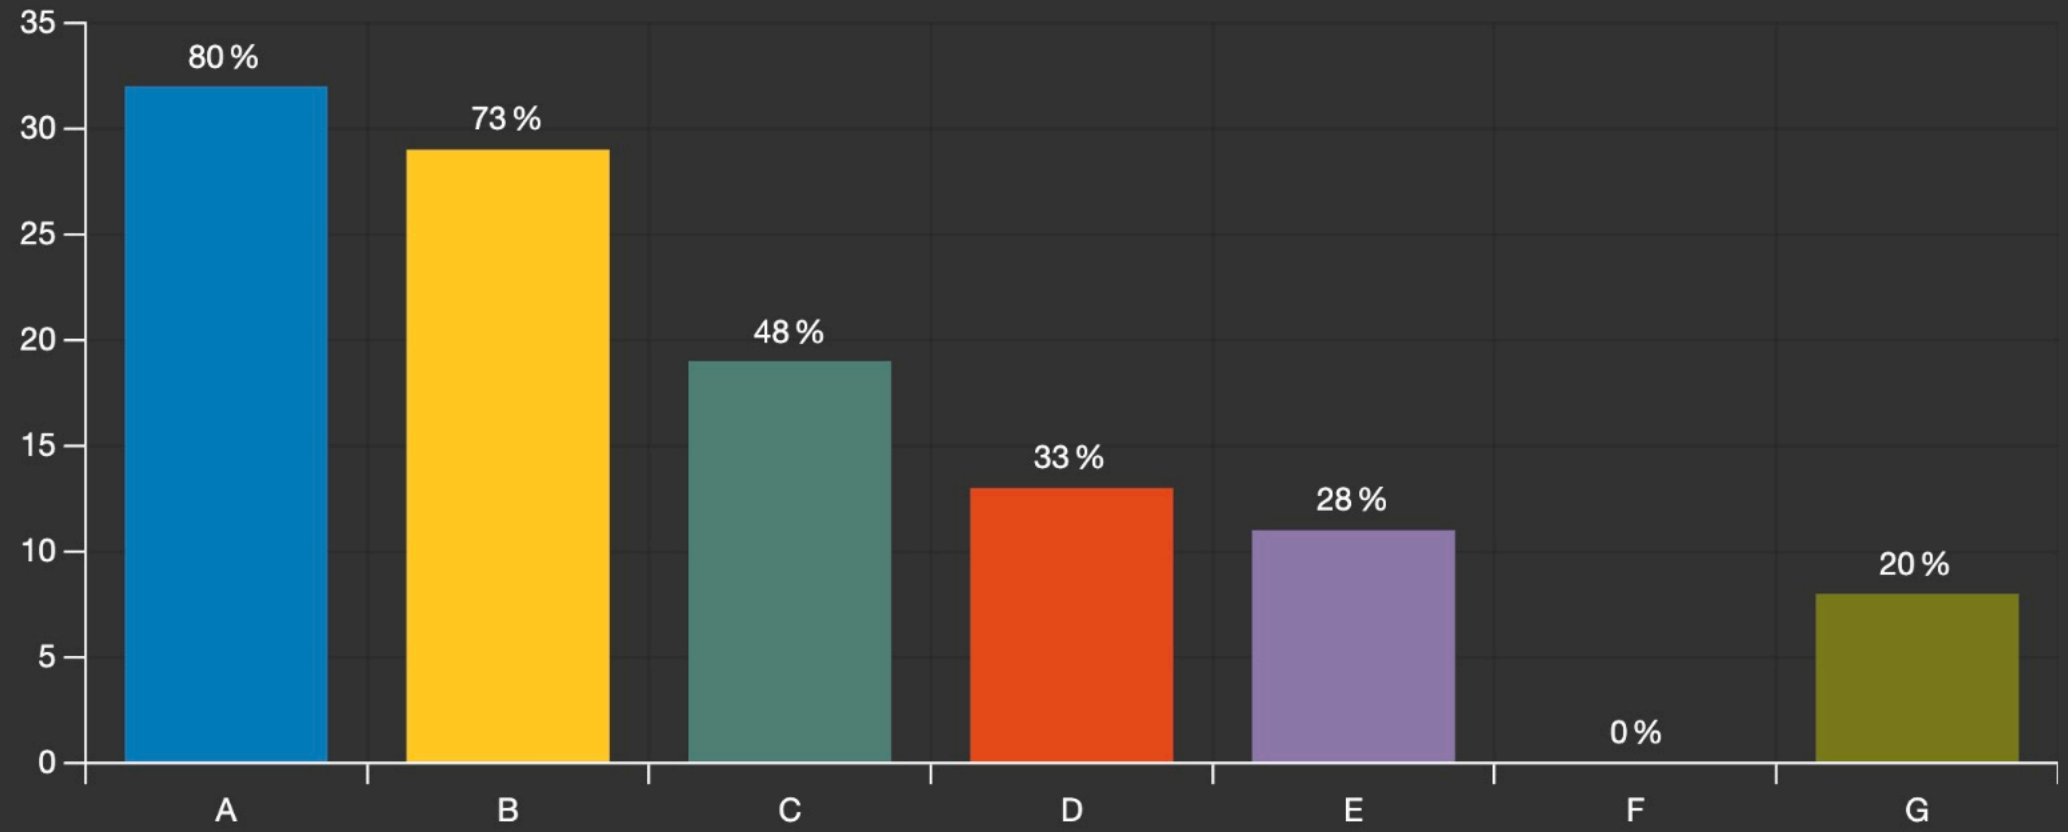

C Know the concept.

D Understand the concept and its application.

What topic or question in ecology are you most interested in?

Which generic AI tools are you familier with?

A ChatGPT

B Gemini

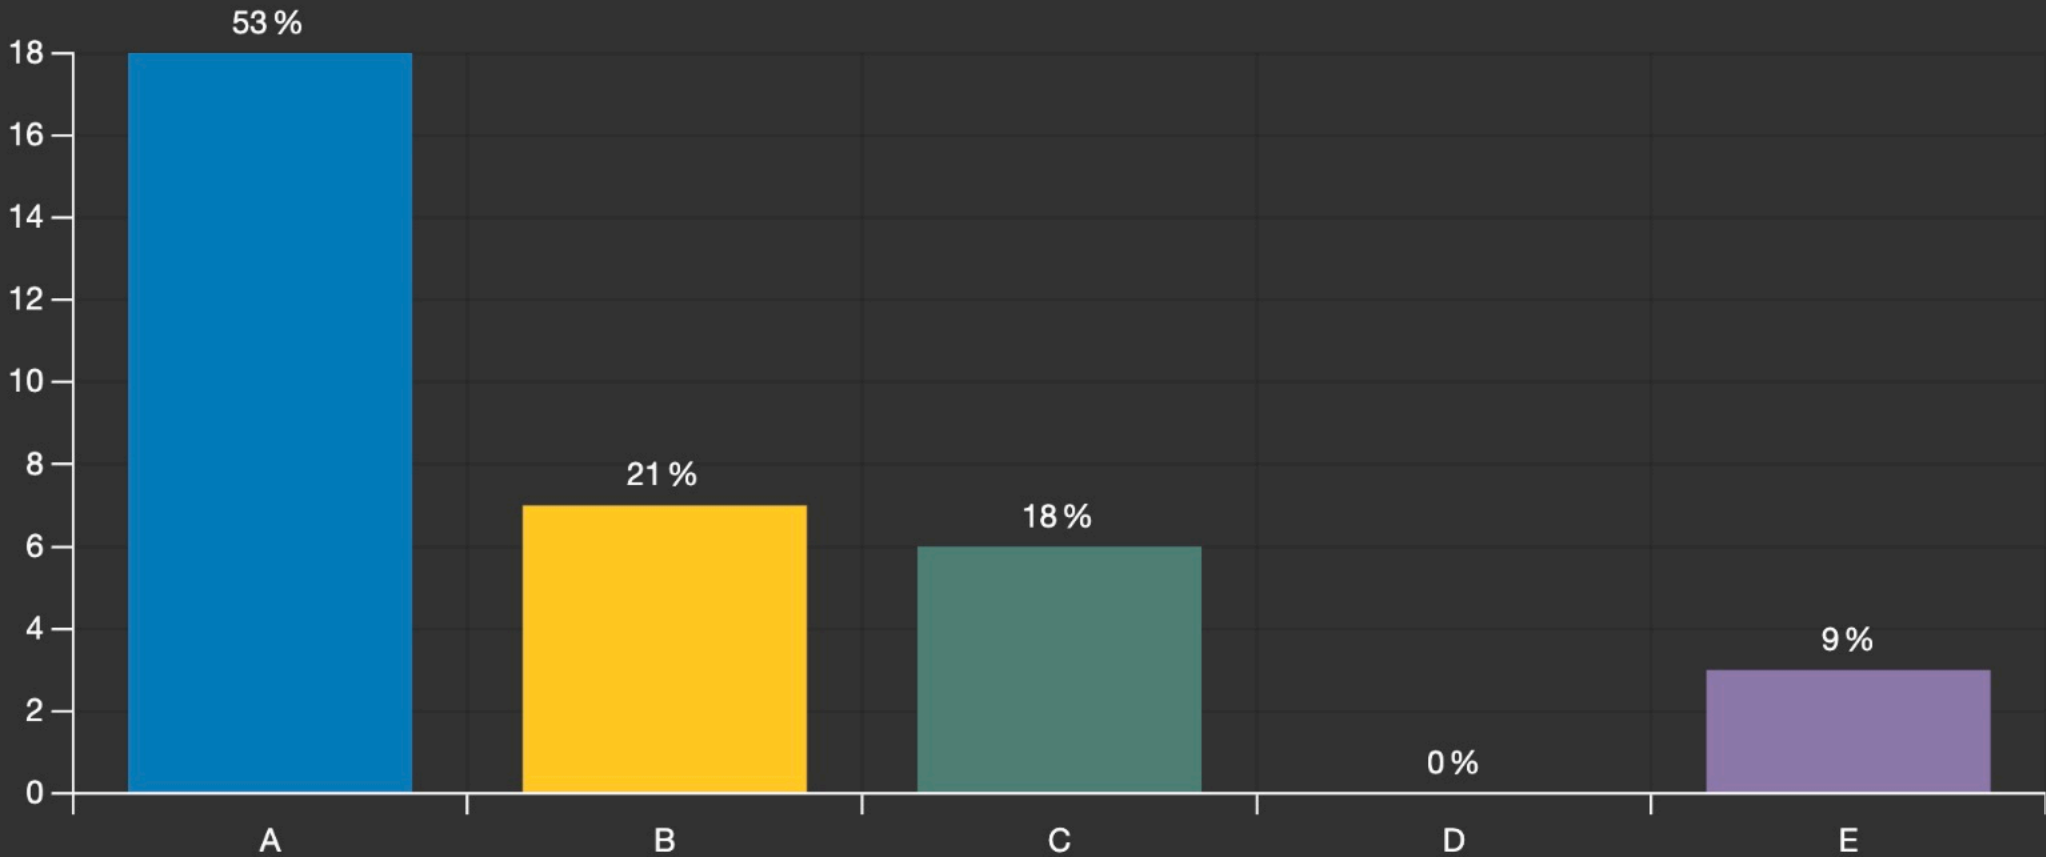

C Claude

D Copilot

E NotebookLM

F SciSpace

Which generic AI tool are you most proficient with?

A ChatGPT

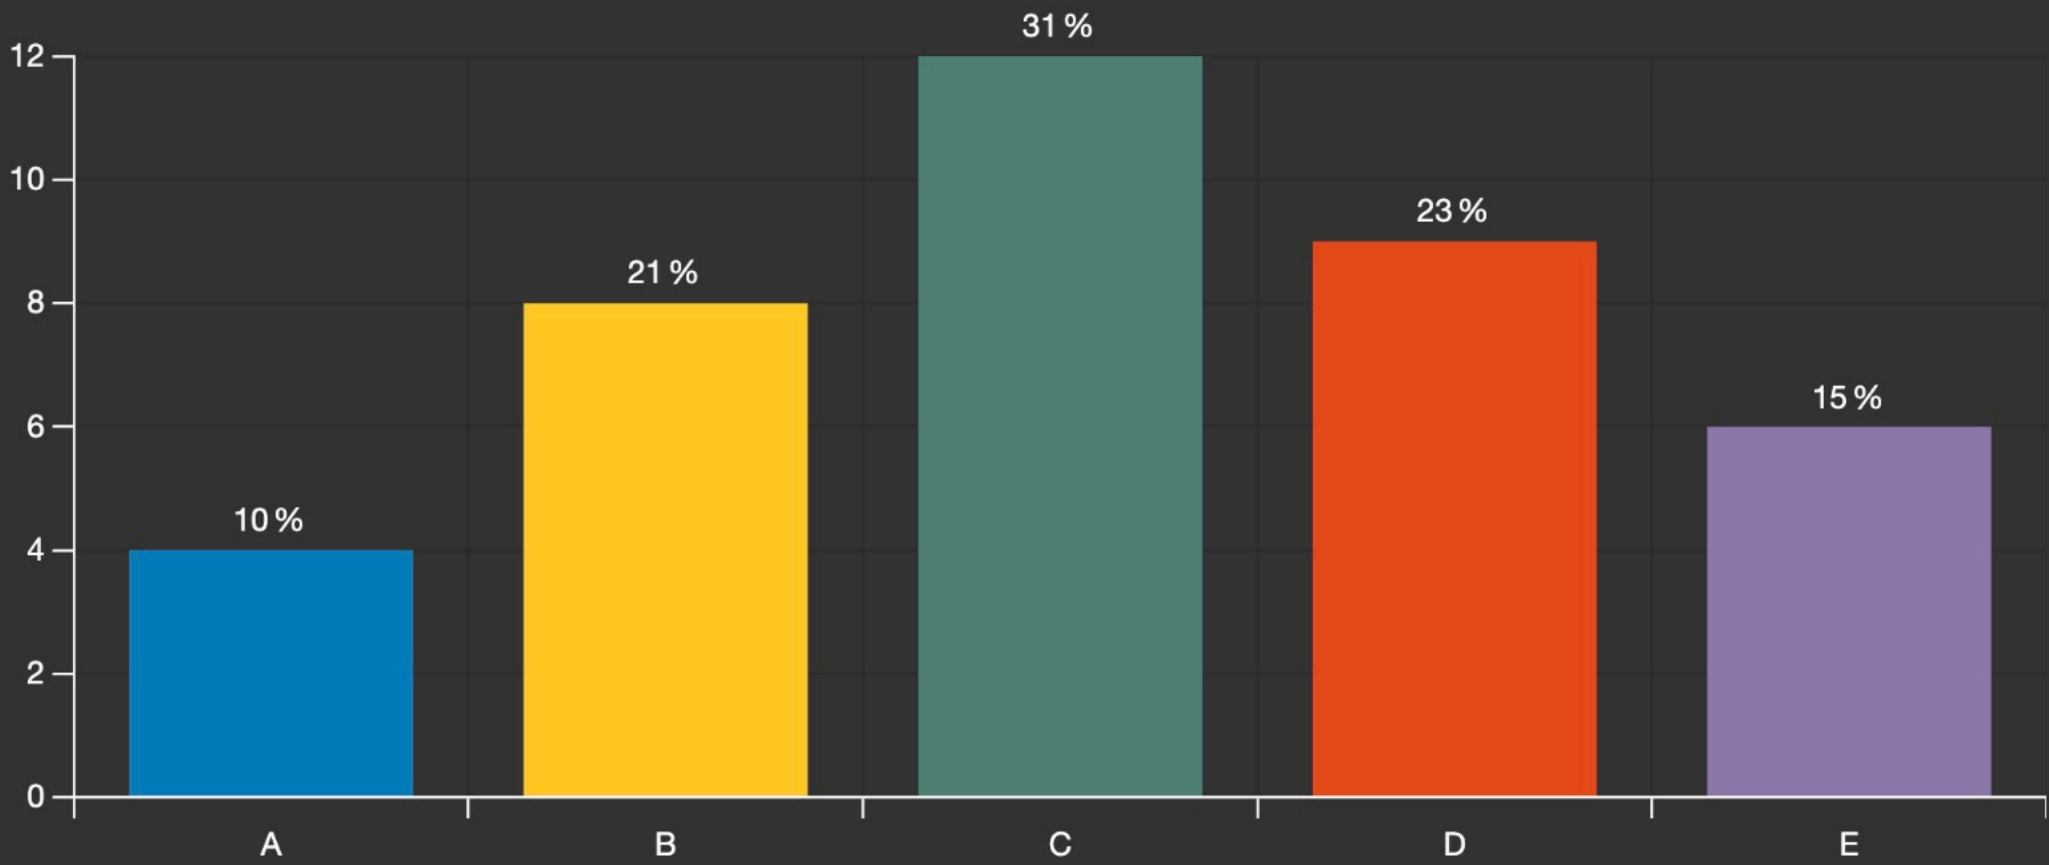

B Gemini

C Claude

D Copilot

E NotebookLM

How often do you use AI tools?

A Constantly

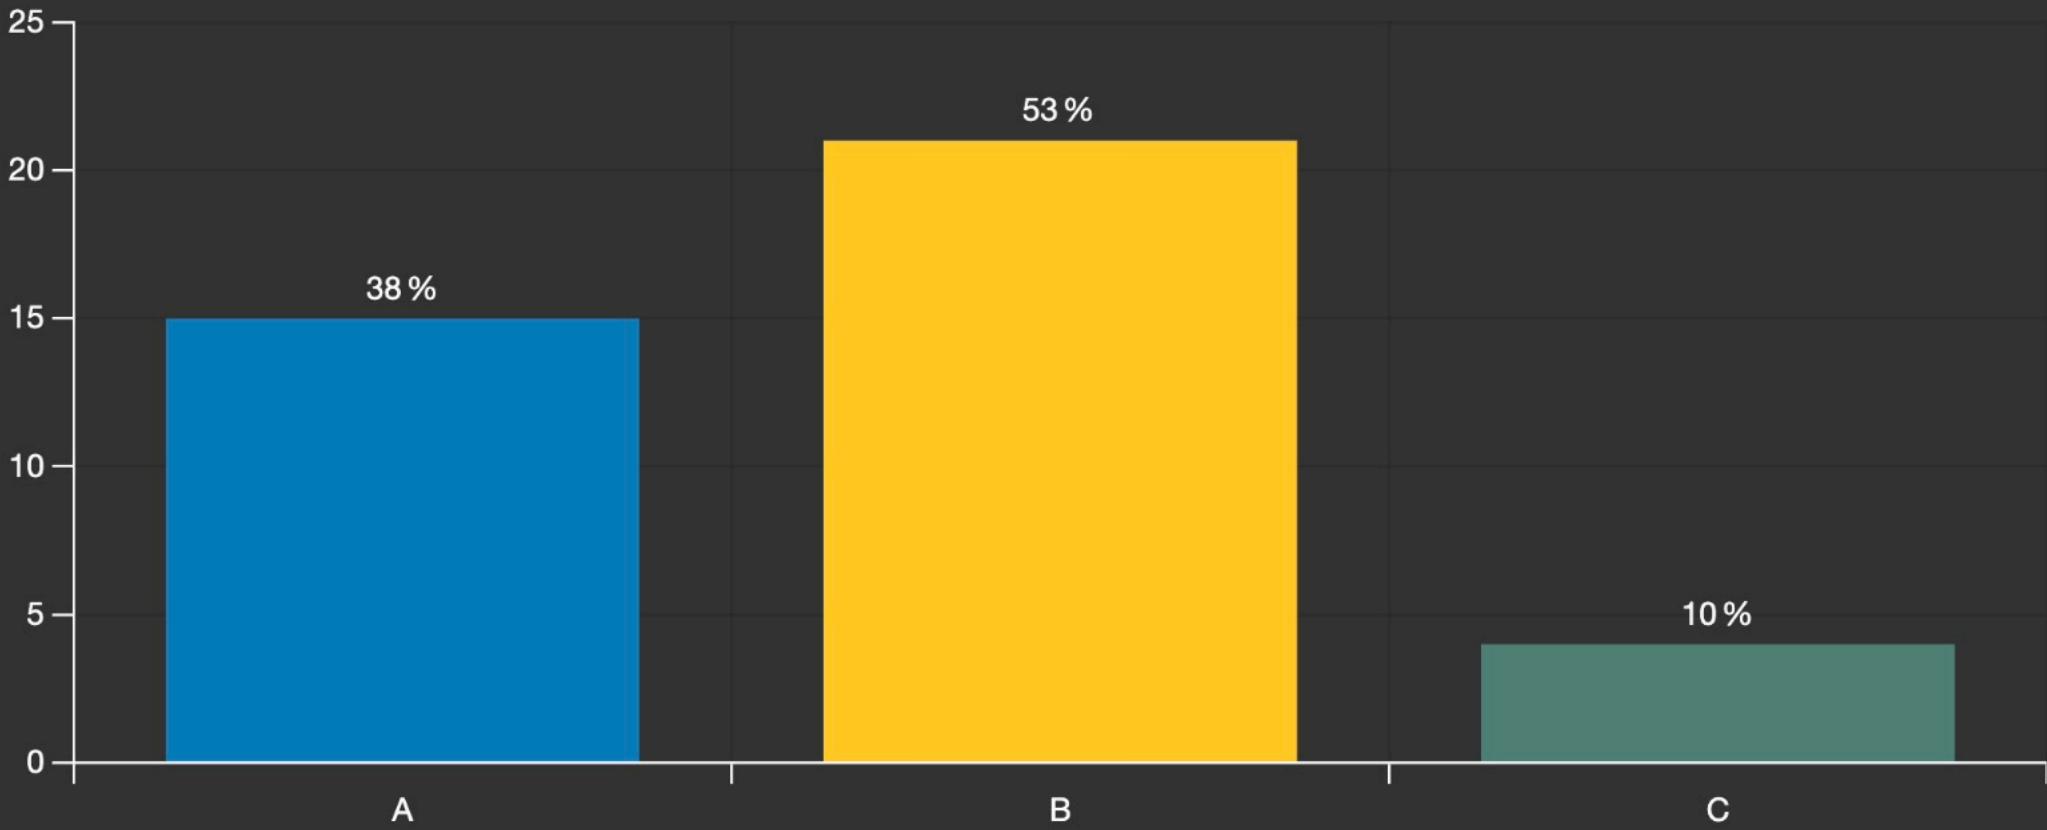

B Daily

C Weekly

D Less than weekly

E Never

How confident are you in interpreting graphs and scientific results?

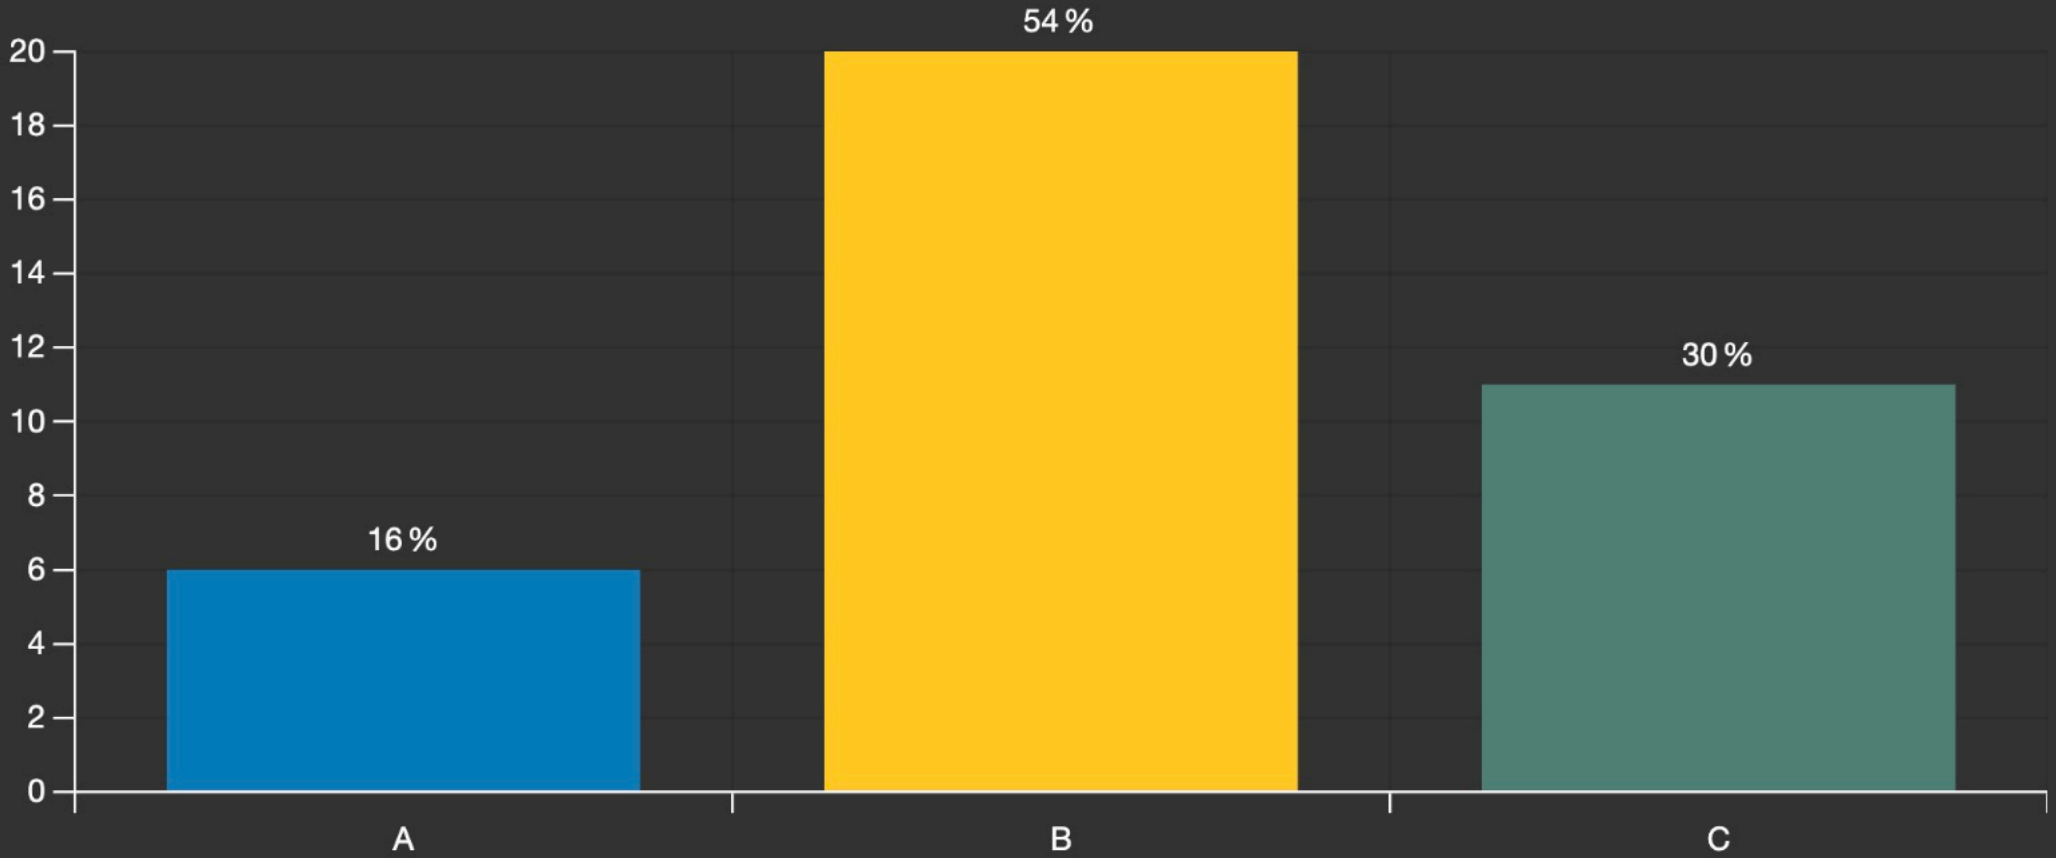

A Very

B Somewhat

C Not at all

How comfortable are you actively participating in class discussions?

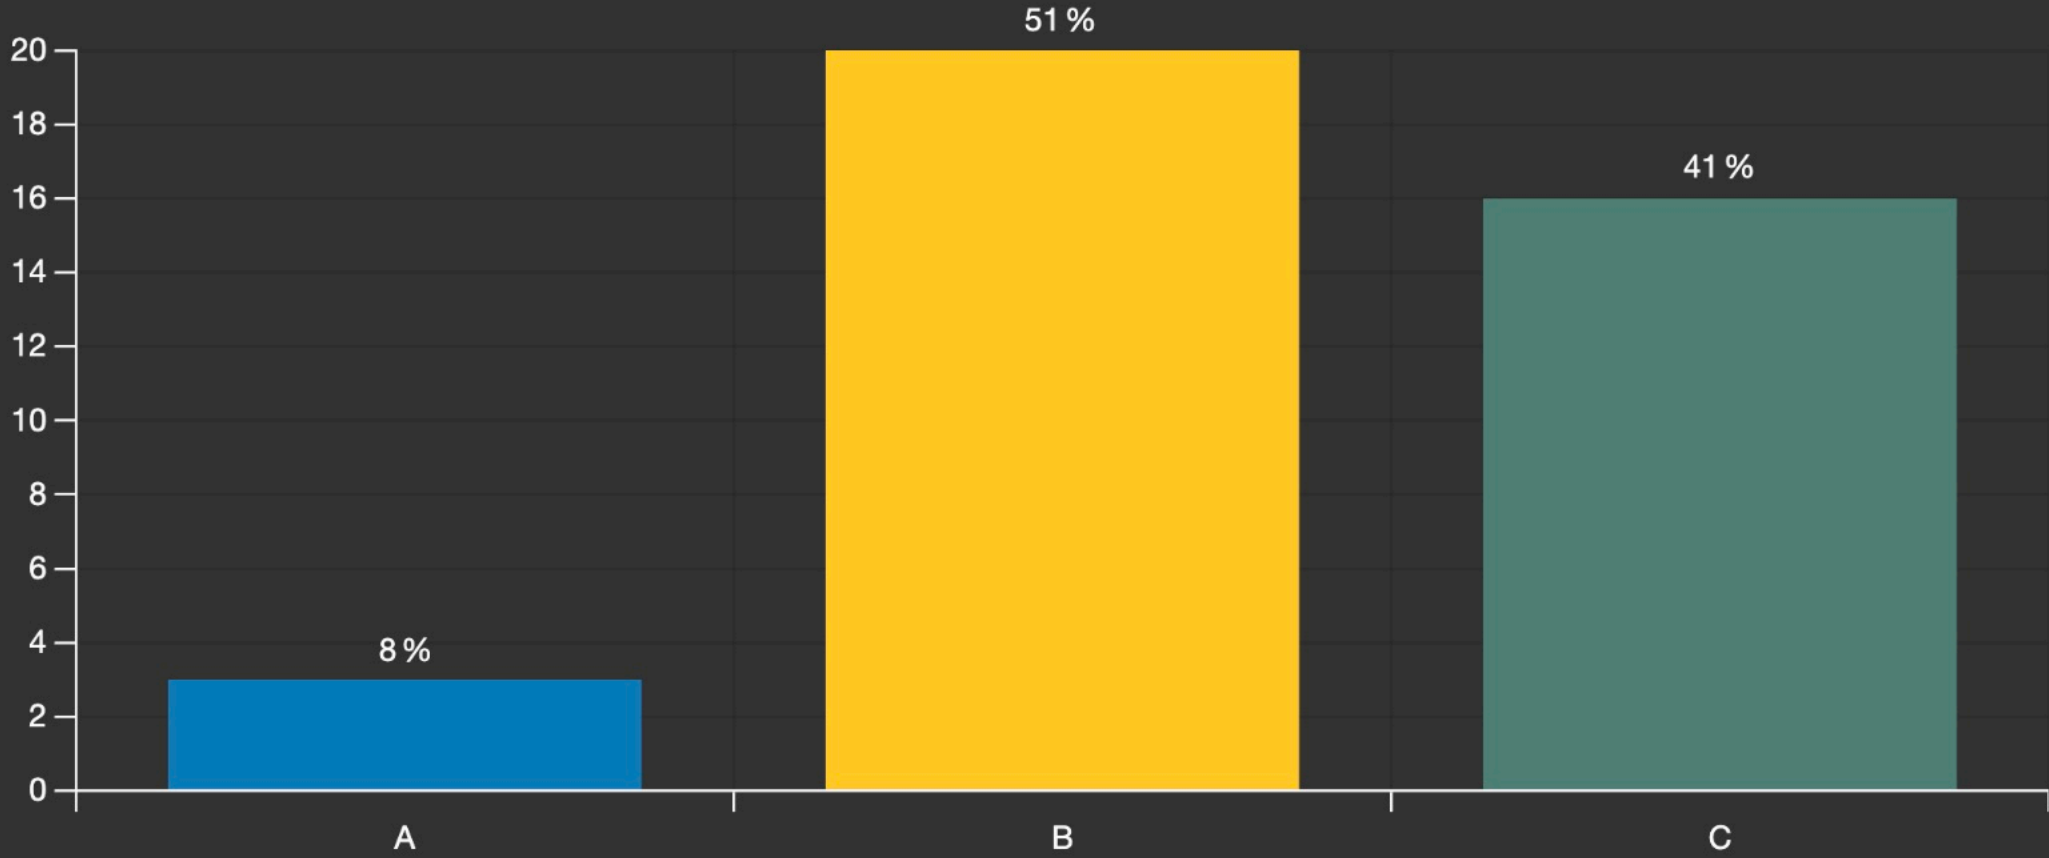

A Very

B Somewhat

C Not at all

How often have you presented in the past?

A Never

B A bit

C Often

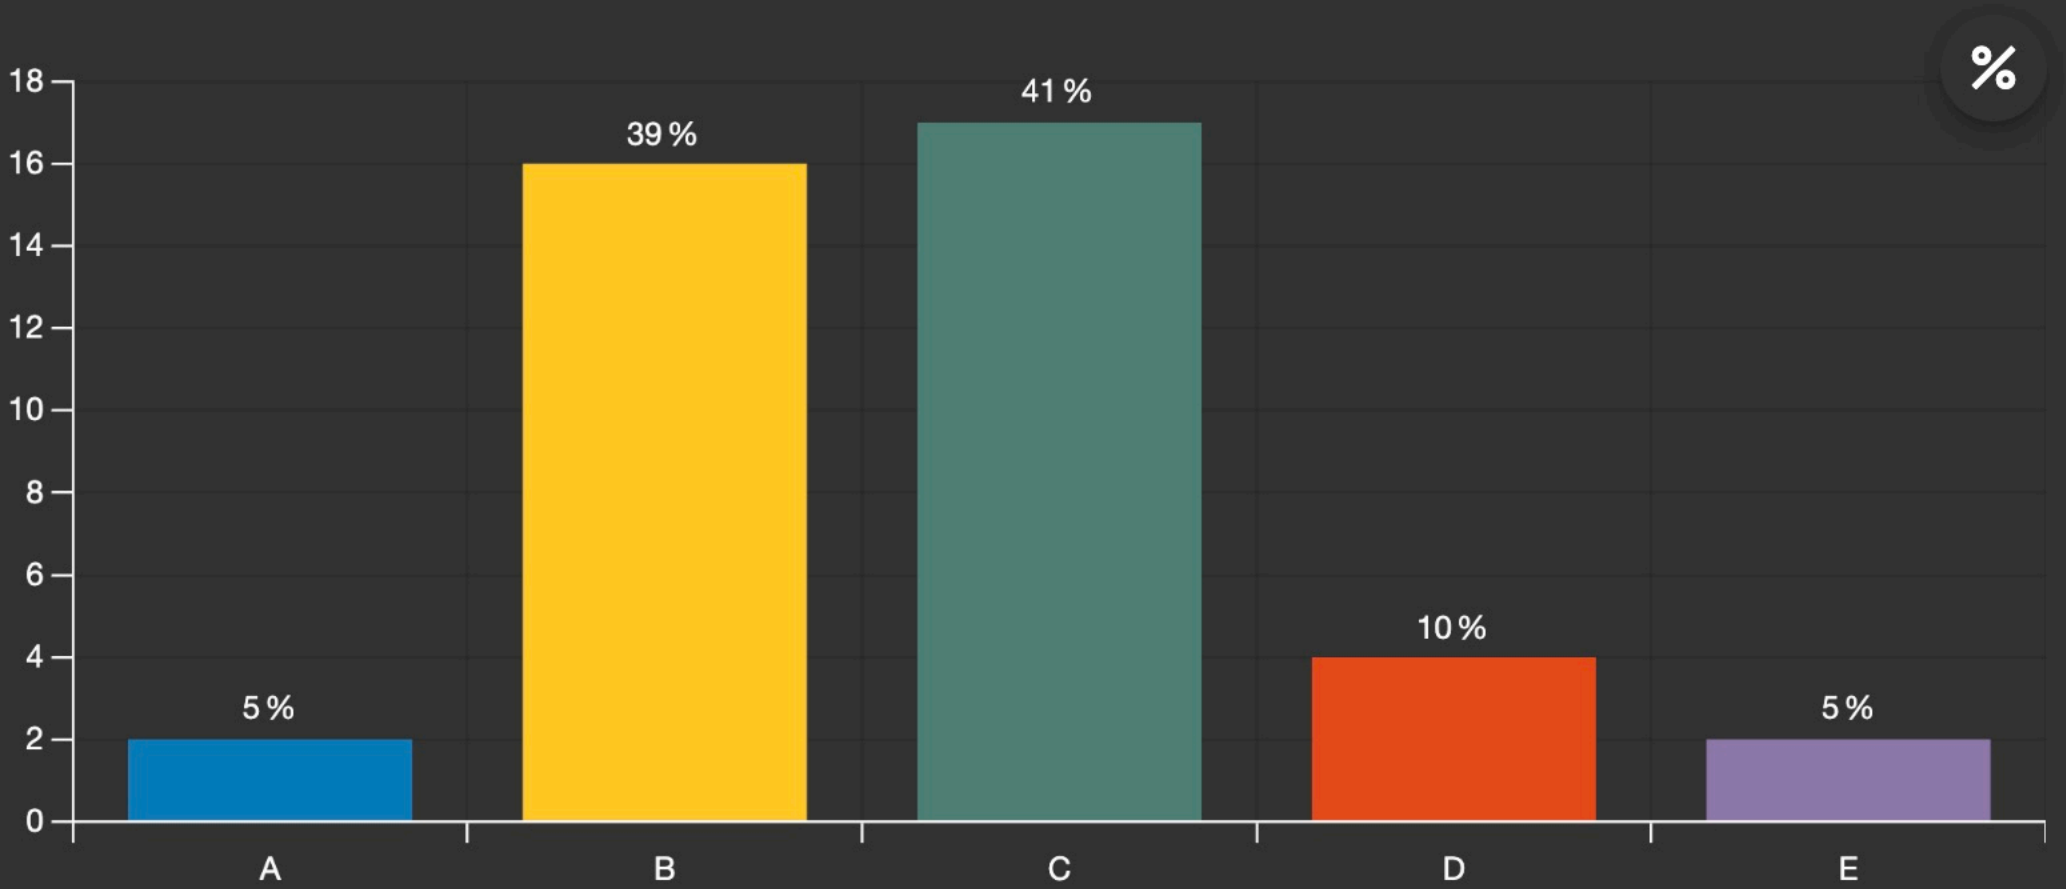

What stresses you the most about learning?

A word cloud on a dark background showing various stressors related to learning. The words are in different colors and sizes, indicating their frequency or importance.
